

## Online Odor Reporting Now Available

March 9, 2018

**SYLMAR, Calif. (Mar. 9, 2018)** – Over the past year, the Sunshine Canyon Landfill team has kept you informed of the progress we've made to collect and control landfill gas, control potential waste odors on site and reduce conditions for future potential off-site odors. We are committed to continuing this work and have already made significant progress in early 2018.

Along with our operational enhancements, we also are focused on enhanced communication with the community. We recently added an odor reporting feature to our web site that allows you to immediately report detected odor you believe is attributable to the Landfill. You can report an odor online at <http://sunshinecanyonlandfill.com/contact-us/odor-report/>.

Once we receive the report, our team will review it and evaluate the reported odor within 24 hours.

We are honored to serve this community, and we strive to be a good neighbor every day. We hope our neighbors will find this new feature useful, as we are committed to keeping the lines of communication open between the Landfill and the community.

If you have any questions, please contact us at [sunshinecanyon@republicservices.com](mailto:sunshinecanyon@republicservices.com) or visit us online at <http://sunshinecanyonlandfill.com/> to learn more.
